Founded in May 2005 in Norway, the **European Aquaculture Society – Student Group (EAS-SG)** is developing into one of the major aquacultural student organizations. EAS-SG is a group bringing together students and young professionals in aquaculture and related fields from more than 20 countries. We aim to provide an easy way of making contact and communicating with others who share similar (research) interests. We also aim to provide comprehensive searchable listings of for instance student mobility opportunities and universities and courses in the field of aquatic sciences.

- Create a personal profile page
- Establish a network of researchers and/or young professionals who share your interests
- Initiate discussions and exchange useful tips
- Find date conference and career information relevant to you

## EAS-SG: Student activities during AE2011

"Bringing students and young aquaculturists together!"

### EAS-SG Newsletter

Dear EAS-SG members,

Dear friends and supporters of the EAS-SG,

Dear colleagues from the aquaculture domain,

This is the first announcement for **EAS Student activities during the upcoming Aquaculture Europe conference 2011**. The conference takes place from October 18-21, 2011 in Rhodes, Greece. Like in the years before, we from the EAS-SG are pleased to offer a dedicated program for all our students and young members. If you want to make sure that you are not missing any of the great activities and special offers, please work through the following action plan:

**Stefan Meyer** Anybody looking for a good place to stay during AE2011 in Rhodes?? That's the hotel were the student group stays. From here, we will start all social activities and excursions during the conference. Book yor room NOW!

## 2. RESULTS

### Student Workshops at Aquaculture Europe conferences

- Every year since 2005
- EAS funded travel grants
- Field trips and social programme
- Target audience 1: students, young researchers, all conference participants
- Use:
  - student relevant presentations
  - community feedback
  - community building

## 2. RESULTS

### *For the future:*

- **Community building**
  - contact more students in Europe and worldwide
  - link to (other) national student organizations
- **Student involvement**
  - involve students in work of productive work-packages
  - How can students be more efficiently used/approached for evaluation?
